

CALIFORNIA REGIONAL MEETING TRANSFERWARE LIDS

San Francisco Area, California

February 24, 2019

California TCC members met for a delightful afternoon on February 24, 2019. The meeting featured transferware lids and was graciously hosted by Jo Anne Jones. Fifteen members from as far away as San Diego attended. This was the fifth California TCC regional meeting.

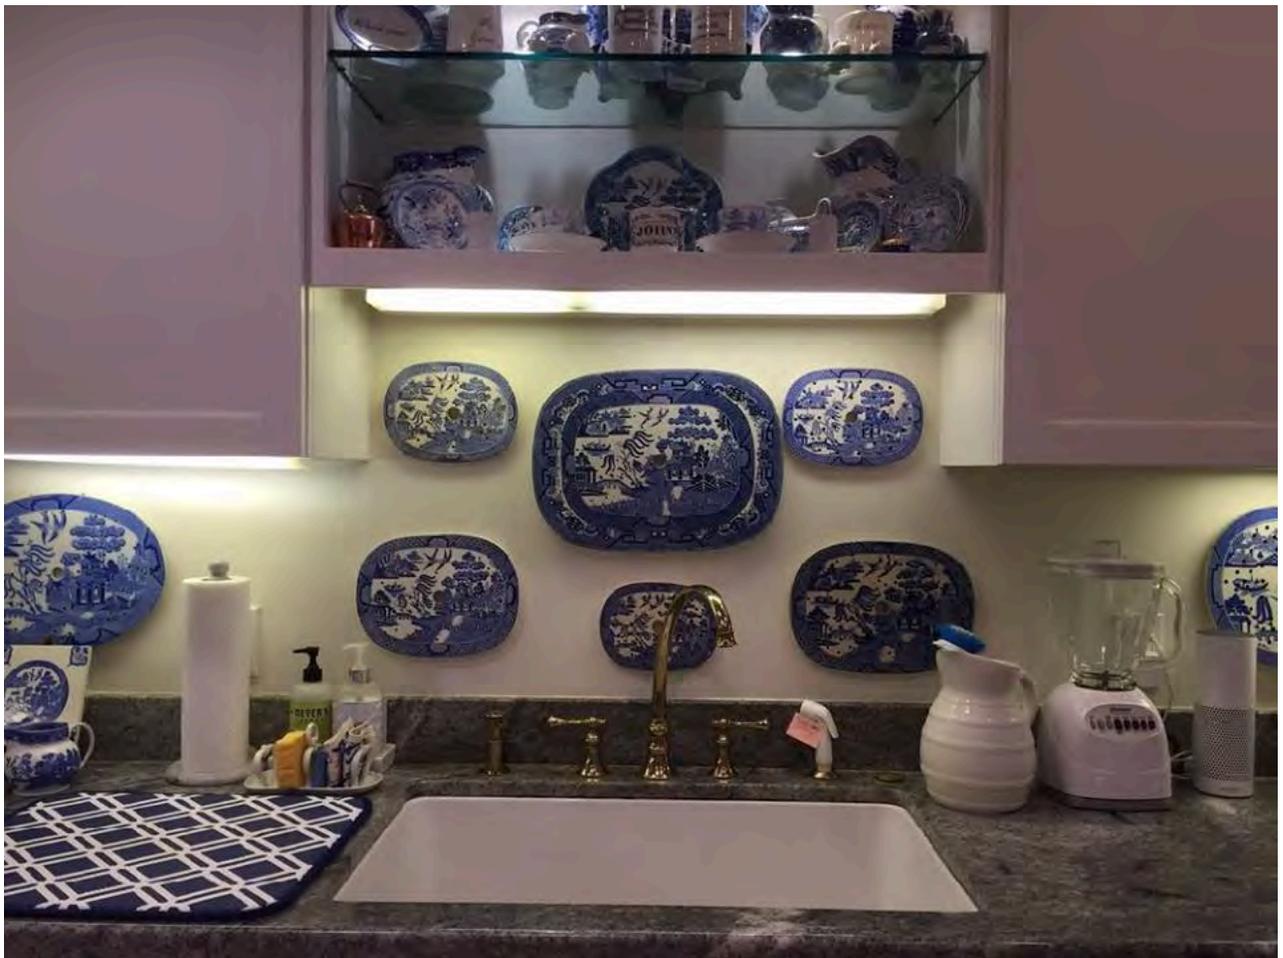

JoAnne displayed and presented her extensive collection of transferware lids, as well as Staffordshire figures, and much more. Continuing the theme of lids, David Hoexter and Judie Siddall discussed Prattware (polychrome) pot lids (product containers), showing numerous examples. David also updated us on his research of advertising calendar plates, with over 2,500 now documented. Attendees shared their favorite transferware items for discussion, including Susan Walter, who brought examples of her transferware archaeological discoveries in the San Diego area.

Lids!!!!!!!

Pratt / Polychrome container lids

Sink and backsplash

Dining room

Butler table

Just a few pieces

Participants
