

The Transferware Recorder

Reynardine Publishing are working to publish further volumes in *The Transferware Recorder* series of books. In order to free up some shelf space for the new arrivals they are making a very special offer to members of the Transferware Collectors' Club. You can buy all four existing volumes for a nominal price of just twelve pounds, plus shipping. The four volumes are printed in full colour and total some 744 pages, cover 1070 different patterns, and offer an extensive 2479 illustrations. Full details of each volume can be found on the website www.transferprintedpottery.com. This is a huge discount from the original published prices, not to be missed.

Total prices for all four volumes are:

UK addresses	£12 plus £6 shipping	Total £18
USA	£12 plus £36 shipping	Total £48
Australia	£12 plus £45 shipping	Total £57

We realise the deterrent of high shipping charges (they vary considerably for different destinations) but they are completely outside our control. Any members outside the UK can avail themselves of the lowest rate, if they can provide a UK address for shipping. Please email for an equivalent quote for any other addresses.

If you would like to accept this very special offer, just send the relevant amount along with your name and address (and shipping address), by Paypal, to:

recorder@transferprintedpottery.com

Any members who already have some volumes are welcome to email for an equivalent special quote to supply just the required copies. Emails again to:

recorder@transferprintedpottery.com
